

Introduction To The Metaphysics Of *A Course In Miracles*

A Seminar By
Loretta M. Siani, Ph.D.

The ego's purpose is fear.

A Course In Miracles

This introductory seminar is the opening seminar in a series on the metaphysics and spiritual psychology of A Course In Miracles. The Course's purpose is to educate us on our invulnerability and our choice between love and fear. To do this it elegantly combines modern psychology with the wisdom of Eastern religion and the loving essence of Christianity to give us simple, practical and extremely effective remedies for our everyday lives.

To get the most out of the study of the Course it is necessary to understand its radical metaphysics that define the *one source* and *one solution* to all of life's problems. This introductory seminar puts the Course's metaphysics of creation into simple terms. You will walk away from this seminar with an entirely new perspective on your problems, your relationships and how to create a context in your life in which miracles can occur. The topics to be covered are the following:

- **The Difference Between Magic And Miracles**
- **The Nature Of Miracles**
- **The Origin Of All Erroneous Thinking**
- **The One Source Of All Problems**
- **The Mind As A Projection Camera And The Big Bang**
- **The One Solution To All Problems**
